

# Student Worksheet for Ep. 10: Quicker Multiplication

**Overview:** If you don't have the patience to do multiplication on paper for every single math problem that comes your way, then you'll really enjoy this math lesson! You'll be able to multiply one and two digit numbers in your head, which you'll be able to use when checking your answers on a math test, or just whenever you need to multiply something quickly when paper's not around.

**What to Learn:** This is a two part lesson, and the first part we're focusing on one and two digit multiplication. If you haven't already mastered your multiplication tables, make sure you have one handy to refer to as you go along.

**Exercises:** Write down your answers, and then check yourself with a calculator.

1.  $23 \times 4$
2.  $81 \times 7$
3.  $71 \times 5$
4.  $25 \times 8$
5.  $29 \times 7$
6.  $53 \times 6$
7.  $62 \times 9$
8.  $17 \times 7$
9.  $33 \times 6$
10.  $85 \times 7$
11.  $89 \times 9$
12.  $97 \times 7$
13.  $79 \times 7$
14.  $49 \times 8$
15.  $99 \times 9$
16.  $20 \times 14$
17.  $20 \times 19$
18.  $30 \times 83$
19.  $40 \times 54$
20.  $80 \times 96$
21.  $50 \times 58$
22.  $60 \times 84$
23.  $70 \times 67$
24.  $90 \times 78$
25.  $50 \times 98$
